Burrillville is located in the northwest corner of the State of Rhode Island. It is bound on the north by Massachusetts and on the west by Connecticut. Burrillville was incorporated in 1806. It originally was a manufacturing community with the textile industry being the dominant function. With the decline of the textile industry, the community evolved into a bedroom community for people working in Massachusetts, Connecticut and other parts of Rhode Island. In recent years the town has experienced a surge in population, reaching a total population of approximately 16,000. The new residents have brought new interests and ideas to the town, which is now influencing the town government.

Burrillville High School has a 7 period per day schedule. Several programs function in a block schedule, such as the Academy and Intensive Algebra. The current enrollment of the high school is approximately 695 students.

GRADUATION REQUIREMENTS:

All students must earn 22 credits to graduate. The required credits are listed below. Each class must graduate under Graduation by Proficiency by the completion of a Digital Portfolio, Individual Learning Plan and Comprehensive Course Assessments

English 4	Social Studies 3	Science 3	Physical Education 2
Math 4	Technology ½	Fine Art ½	

ADVANCED PLACEMENT COURSES:

Advanced placement courses are offered in English Language, English Literature, Calculus AB/BC, Biology, Chemistry, Modern European History, Physics and Statistics.

COURSE LEVELING:

Courses are offered at four levels. The levels are un-weighted, college preparatory, honors, and college equivalent (AP and EEP). The Grade Span Expectations, which are curriculum standards, are the same for all levels. The difference between levels is reflected in the increase in rigor and the opportunity for enrichment. Dual enrollment indicates enrollment in an AP (where the test is taken) or EEP course.

Burrillville High School is designated as a concurrent enrollment partner of distinction with Rhode Island College. Fall 2013 data: Burrillville High School offered 2 courses through the Early Enrollment Program 100% of the students earned transferable college credits.

MARKING SYSTEM:

Grades are reported as numeric grades from 50-100. U represents a grade below 50. M means that the student was absent from class and that the absences affected the grade. Z indicates a course taken for audit purposes only; no grade and no credit. For a very select number of courses, the student may receive a Passing (P) or Failing (F) grade designation.

The chart below is representative of the scale used to weight grades. Each numeric average from 100 to 65 has a weighted equivalent. All grades below 65 receive no credit.
